

Workday Adaptive Planning for Life Sciences

Powering mission-driven organizations to navigate their path forward

YOUR TRUSTED LIFE SCIENCES PARTNER

Strada offers Life Sciences organizations unmatched expertise in Workday Adaptive Planning, backed by nearly two decades of experience. As the only partner in the Workday ecosystem to support clients across every stage—from advisory and deployment to operations and optimization—we ensure long-term success. With over 975 successful projects and more than 200 active customers, Strada is a trusted leader in Financial Planning and Analytics solutions for Life Sciences.

HOW WE HELP

Pharmaceuticals

We put customers first, offering personalized, hands-on support to deliver a seamless Workday experience that drives team success.

Biotechnology

With one of the largest, dedicated Workday practices in the industry, our experts provide unmatched service and deep sector expertise.

Medical Devices

From design to deployment and ongoing optimization, we support every step, ensuring a smooth, end-to-end Workday experience.

KEY BENEFITS

- **Program Planning:** Effortlessly manage multi-year, multi-program plans, track progress, and compare actual vs. projected spend across R&D, Clinical, and Commercial phases—keeping every project on track with clear cash impact insights.
- **Clinical Trials Modeling:** Create customized site and patient planning models to streamline site selection and recruitment, while ensuring scalable, flexible trial management with dynamic assumptions.
- **Revenue, COGS & Inventory Planning:** Forecast revenue from partnerships, optimize commercial strategies by analyzing Payor Mix and Gross-to-Net Revenue. Accurately plan COGS and inventory to boost supply chain efficiency and cost control.
- **Financial Statement Modeling:** Quickly build adaptable financial models for Income Statement, Balance Sheet, and Cash Flow, simplifying reporting and enhancing financial analysis.
- **Operationalize Growth Strategies:** Flexibly model growth scenarios, track cash burn, and plan for resource capacity, enabling proactive adjustments and informed decision-making for strategic success.
